

# Tuolumne County Healthcare Coalition Healthcare Recovery Information & Resource Guide

**Recovery phase** – the effort to restore infrastructure and the social and economic life of a community (or healthcare facility) to normal and incorporates mitigation\* as a goal.

\*Mitigation – actions that involve lasting, often permanent exposure to, or potential loss from hazard events. Mitigation plans are hazard specific.

Reference: Tuolumne County Public Health HEPReP Section VIII - Recovery

**Hospital Preparedness Planning (HPP) Capability 3:** Healthcare system recovery involves the collaboration with Emergency Management and other community partners, to develop efficient processes and advocate for the rebuilding of public health, medical, and mental/behavioral health systems to at least a level of functioning comparable to pre-incident levels. The focus is an effective and efficient *return to normalcy or a new standard of normalcy for the provision of Public Health to the community.*

The two functions are:

Function 1. Develop recovery processes for the healthcare delivery system.

Function 2. Assist healthcare organizations to implement Continuity of Operations Plans (COOP).

**HEPReP (Health Emergency Preparedness & Response Plan) Section VIII - Recovery:** This section of the HEPReP discusses HPP recovery capabilities and functions, as well as disaster reimbursement options. You may access HEPReP Section VIII: Recovery by visiting the Healthcare and Safety Coalition website <http://tuolumnehcsc.com> and clicking the “Files” tab at the top of the page. Then, click on the “HEPReP, Health & Medical” tab on the left side. From this screen you can access the various sections of the HEPReP.

**“Healthcare System Recovery – Financial Sustainability After a Disaster” Webinar:** This webinar is available through the U.S. Department of Health & Human Services ASPR website.

Description of the webinar: “This discussion focused on essential elements necessary to ensure your healthcare system is prepared to mitigate the financial burden associated with post-recovery operations. Topics discussed included Centers for Medicare and Medicaid Services waivers, Federal Emergency Management Agency reimbursement criteria, recouping disaster expenses, and Small Business Administration loan eligibility.”
